Speed: 1.0x (~140 wpm). Pace: ~68 words per 30s block

BLOCK 1: Dark-Store Crisis Hook & Gemini Split Screen — 0:00 – 0:30 (30s)

PHYSICAL SCREEN ACTIONS (TAB 1)

1. **0:00 - 0:08**: Show Tab 1 storefront. Scroll down smoothly showing the 100 live grocery products with ₹ pricing and green “In Stock” pills.
2. **0:08 - 0:16**: Click category pill *“Dairy & Eggs”*, then *“Snacks”* to demonstrate instant zero-delay catalog filtering.
3. **0:16 - 0:30**: Move cursor to search bar and click **[✨ Ask AI]**. Watch storefront glide left (420px push) into the Gemini split-screen while remaining 100% scrollable.

ELEVENLABS VOICEOVER SCRIPT

“Across the world, over forty million independent neighborhood grocers are losing ground to venture-backed dark-store giants. Local merchants do not lack loyal customers; they lack an enterprise tech stack. Meet CartSettle. We built an autonomous retail platform with real-time stock tracking. When shoppers tap Ask AI, the store glides into a live desktop split screen, keeping the entire catalog completely interactive with zero disruptive popups.”

68 words • ~27s spoken at 140 wpm

BLOCK 2: Multimodal Vision Handwritten List Scanner to Cart — 0:30 – 1:00 (30s)

PHYSICAL SCREEN ACTIONS (TAB 1 SPLIT SCREEN)

1. **0:30 - 0:38**: In the right AI Assistant drawer, click the **Camera / Image Upload** icon in the bottom composer.
2. **0:38 - 0:45**: Select `sample_grocery_list.jpg` from Desktop. The Instants preview renders with an animated green laser scanning vertically.
3. **0:45 - 1:00**: Interactive **GROCERY_CHECKLIST** card appears listing items. Hover over items, then click **[Add Available Items to Cart]**. Cart badge jumps to 4 items!

ELEVENLABS VOICEOVER SCRIPT

“Most everyday shoppers still write paper grocery lists. With our multimodal vision scanner, customers snap a quick photo of handwritten scribbles or receipts. Powered by Gemini Vision, CartSettle digitizes raw handwriting into an interactive checklist in real time, verifies live inventory on the shelves, and lets the customer add every in-stock item with a single tap. No manual searching, no barcode scanning, and zero friction.”

70 words • ~28s spoken at 140 wpm

BLOCK 3: Conversational Price Discovery & DealCard Lock — 1:00 – 1:30 (30s)

PHYSICAL SCREEN ACTIONS (TAB 1 AI CHAT)

1. **1:00 - 1:08**: In the chat composer, type: `Can you make it a bundle deal for ₹550?` and hit Enter.
2. **1:08 - 1:20**: AI counters with approved deal. Animated **DealCard** appears showing strike-through total → **₹560.00**, “Save ₹27” badge, and 10:00 live timer.
3. **1:20 - 1:30**: Click **[Accept Deal]**. Card locks with green checkmark and the live Cart total on the left updates immediately to ₹560.00!

ELEVENLABS VOICEOVER SCRIPT

“Independent retail was built on human relationships and flexible haggling. Instead of rigid e-commerce pricing, CartSettle introduces Conversational Price Discovery. Shoppers can negotiate bundle deals directly with our AI assistant. Protected by strict merchant margin guardrails, the assistant analyzes store profitability, counters with an approved bundle discount, and locks the agreed deal with one tap directly into the live checkout cart.”

69 words • ~27s spoken at 140 wpm

Continued on Page 2: Blocks 4 & 5 + Full Narration Master

BLOCK 4: 1-Tap Checkout & PayPal SafeHold Pre-Authorization — 1:30 – 2:00 (30s)

PHYSICAL SCREEN ACTIONS (TAB 1 /CHECKOUT)

1. **1:30 - 1:38**: Click **[Checkout]**. Show the Apple-Pay style financial ledger (Subtotal ₹587, Deal Savings -₹27, Total Due ₹560).
2. **1:38 - 1:46**: Hover over Row 5 showing *PayPal (Selected • SafeHold authorization)*.
3. **1:46 - 2:00**: Click the single minimal gold **[Pay with PayPal]** button. In 1 tap, order is accepted! Green "Order placed" screen renders with zero popups.

ELEVENLABS VOICEOVER SCRIPT

"In on-demand grocery, item stockouts cause ninety percent of customer disputes. CartSettle solves this using PayPal SafeHold pre-authorization. Rather than charging customers upfront, our engine places a verified authorization hold on the buyer's PayPal account. With a single tap, the order is confirmed, funds are held securely in escrow, and the order transmits straight to the merchant's packing table with zero popup hurdles."

67 words • ~27s spoken at 140 wpm

BLOCK 5: Optical Bag Audit, PayPal Dynamic Partial Capture & Tax Invoice — 2:00 – 2:30 (30s)

PHYSICAL SCREEN ACTIONS (TAB 2 /OWNER)

1. **2:00 - 2:08**: Switch to **Tab 2** (`/owner`). Click **[📦 AI Packing & Settlement]** in top bar. Active order modal opens.
2. **2:08 - 2:18**: Click **[Scan Bag Photo]** → select `sample_packing_bag.jpg`. AI marks 3 items checked green and flags 1 missing item red with auto-refund calculation.
3. **2:18 - 2:30**: Click **[Complete Packing & Partial Settle]**. PayPal captures ₹425, auto-refunds ₹135. Click **[View PayPal Tax Invoice]**!

ELEVENLABS VOICEOVER SCRIPT

"At the store, merchants click AI Packing and snap a quick photo of the packed bag. Gemini Vision audits the physical items against the order. If an item is missing, the AI unchecks it and recalculates the total. With one click, PayPal executes Dynamic Partial Capture: capturing only for packed groceries and instantly releasing the remaining balance back to the buyer. CartSettle empowers forty million local retailers with autonomous intelligence."
